

[KRISH N PANCHAL]

FRONT-END DEVELOPER

✉ [kingpanchal2040@gmail.com] | ☎ [+91-7573070665] | △ [github.com/kp2040] | 🔗 [linkedin.com/in/krish-panchal-066466407]

PROFESSIONAL SUMMARY

Passionate and detail-oriented Front-End Developer with hands-on experience in building responsive and user-friendly web applications using HTML, CSS, JavaScript, React . Skilled in leveraging AI tools such as ChatGPT, Google Gemini, Claude AI, and GitHub to accelerate development. Strong understanding of modern API integration, and Git-based development workflows. Dedicated to creating scalable, optimized, and visually appealing digital solutions while continuously learning AI and web technologies.

CORE SKILLS & TOOLS

Frontend	Development Tools	ChatGPT / Gemini
HTML / CSS BOOTSTRAP / JAVASCRIPT REACT JS	VS Code	ChatGPT Claude AI

WORK EXPERIENCE

Front-End Developer Intern | Academic Projects

- Developed responsive and interactive websites using HTML, CSS, JavaScript, ReactJs.
- Built reusable UI components and optimized layouts for mobile, tablet, and desktop devices.
- AI-Enhanced — Used ChatGPT and GitHub, component generation, API integration assistance, and faster code development.
- Worked with GitHub for version control, project management, and deployment workflows.
- Created mini-projects including portfolio websites, API-based applications, and dashboard interfaces.
- Improved website performance through image optimization, clean component structures, and responsive UI practices.

AI SKILLS & CERTIFICATIONS

Generative AI & Prompt Engineering | Self-Learning / Online Platforms

- Learned practical applications of Generative AI tools including ChatGPT, Gemini, and Claude AI.
- Built AI-assisted mini projects such as resume builders, and automated content workflows.
- Applied prompt engineering techniques including zero-shot prompting, structured prompting, and iterative refinement for accurate outputs.

AI Workflow Automation | Hands-on Practice

- Explored workflow automation using AI tools for faster development and productivity enhancement.
- Used AI to generate debug JavaScript code, create responsive UI layouts, and optimize frontend workflows.
- Practiced AI-powered design generation, documentation writing, and content summarization for web projects.

FEATURED PROJECTS (LEARNING-DRIVEN PORTFOLIO)

E-Commerce Website – DK FAB Digital Weight Scale Platform

Project Context: Designed and developed a responsive e-commerce website concept for a digital weighing scale manufacturing company.

- Built responsive product pages, homepage banners, navigation menus, and product showcase sections.
- Used HTML, CSS, JavaScript, for modern development.
- AI-Assisted Development — Used ChatGPT and GitHub Copilot for layout generation, debugging, and frontend optimization.
- Implemented clean UI design, responsive layouts, and optimized image handling for better performance.
- Key Learning: Responsive web design, component structuring, UI optimization, and frontend deployment workflow.

EDUCATION

Bachelor's Degree in Computer Engineering (BCE) (*Completed*)

[Silver Oak University] – Ahmedabad, Gujarat

ACHIEVEMENTS & EXTRACURRICULARS

-
- Participated in AI, Web Development, and Programming workshops/webinars.
 - Built multiple frontend and API-based academic projects using modern web technologies.
 - Continuously learning AI-assisted development workflows and modern frontend frameworks.
 - Strong communication and presentation skills with experience explaining technical concepts and project demos.
 - Active learner in web development communities and GitHub project collaboration.
-
